Message from the Team leader about the Camp concluded,

First of all I thank god for trusting in one man and giving immense responsibility to lead team / Regional Leaders & Youths in every part of our nation, It is not easy said and done to when you are doing a full-time office job / manage your family responsibilities and serve god when you get your spare time,

All YAM leaders when we go our offices we face different Challengers, Pressure, Dissatisfactions with these all mixed emotions YAM is Team we come together once a week to pray & plan what we need do for the kingdom of god during our spare time,

As leader I can very confidently say me & my family have been so blessed by this ministry and all our team mates mention the same, because today what most of the Youths & Leaders need is they need engage in some kind of ministry, because the evil is so cruel in world if you are not at god's presence and his field the chances the world will take over is 100% I say this with my own experience & seen in reality many youths & youth leaders life.

This camp was very close to my heart because the days we live in one of the main responsibility as Leader I have and god is leading me is that every person in our need get opportunity to witness the good news of Christ and to know the power of that good news,
